## **Psychic Trauma**

## **Cloud Nothings**

You'll never be here, it's hard to explain Psychic trauma, returns with age There's nothing new here, No room to relate I don't know what you're tryna to say

Try to stop it, try to feel something
But nothing happens,
I stay the same
Is it alright to end up this way!
Life gets boring, fades away

And I can't believe that what you're telling me is true My mind is always wasted listening to you And I can't believe that what you're telling me is true My mind is always wasted listening to you!
