

Waking up to another day  
Feeling thrilled of what's to come  
Everything's alright  
A pleasant feel of inner peace, consciousness, correct behavior  
Embrace the world, it's yours to love  
No more crying, no denial  
No more lying life's too precious  
All you need is to keep on smiling

Rising. falling. makes you stronger  
Don't ever give it up  
Try to be king of your life  
Share your energy  
Never refuse your dreams

You see the sunlight cover the ground  
A soft wind breeze makes you feel enlightened  
You are a lover of life
