

Static

Cloudscape

I cannot believe the words
spoken by a voice
from the other side
it's calling
you have to listen to the warning
you will be dead tonight
they are waiting for your soul
can you hear it?

Hear the warning!!
it's for real
you will see everything

Can you see them, restless spirits
from beyond they 're crossing over
legion's army, ready to rule our world
through the white noise they will reach you
coming for you through the static
electronic voice phenomenon

The static

Rising from the depths of hell
legion is their name
evil! the demons! are coming
there's a gateway they will enter
our world will be theirs to rule
you'll need to disconnect forevermore

Hear the warning!!
it's for real
you will see everything

Can you see them, restless spirits
from beyond they're crossing over
legion's army, ready to rule our world
through the white noise they will reach you
coming for you through the static
electronic voice phenomenon

Legion is their name...
(through the static)

Hear the warning!!
it's for real
you will see everything

Can you see them, restless spirits
from beyond they're crossing over
legion's army, ready to rule our world
through the white noise they will reach you
coming for you through the static
electronic voice phenomenon

Can you see them, restless spirits
from beyond they're crossing over
legion's army, ready to rule our world

through the white noise they will reach you
coming for you through the static
electronic voice phenomenon
