

# Dominator

## Cloven Hoof

Cloned for perfection,  
born to lead.  
Test tube selection,  
for the Arian strain.  
Genetic rejection,  
the silicon seed,  
implanted evil in  
embryonic brain.

(Chorus)

The scientists made way for the  
master race,  
Changed the face,  
of galactic history.  
Enslave the frontiers of time  
and space,  
one mad man came to be...  
Dominator!  
Dominator!

Scanning dominions in his power dome,  
patched into the grad computer prime.  
High evolutionary,  
on mechanised throne.  
Divine lord of all,  
by grand design.

(Chorus)

Dominator!  
Oppressor of the free.  
Terminator!  
of humanity.

Into the Arena,  
to satisfy,  
the bloodlust in his all seeing,  
photo scenic eye.  
Gladiator's fight,  
the spectacle of might.  
Giving of their very  
lives for the games.

Cosmic champions all they came,  
the slayer and the slain,  
put to sword and flame.  
That a star system lives,  
a star system dies!
