

Jekyll and Hyde

Cloven Hoof

Left alone in your little room,
Tonight it's not safe in your bed.
You'll find me where the shadows loom
I've a hunger and it must be fed.

Cold blooded mentality,
two-way gemini.
My dark side gets the better of me,
the evil is rising inside.

Chorus
Jekyll and Hyde.
Calling Dr. Jekyll,
meet Mr. Hyde!

Got a split personality
when the night begins to fall.
Can't fight this insanity,
the beast within us all.

Transformation changes my face,
visions twist my mind.
They seek a killer,
but in my place,
another stands behind.

(Chorus)

Woman child you are the victim,
Of my inner battle for survival.

Left alone in your little room,
Tonight it's not safe in your bed.
You'll find me where the shadows loom
I've a hunger and it must be fed.

Got a split personality
when the night begins to fall.
Can't fight this insanity,
the beast within us all.
