

# Nightstalker

Cloven Hoof

Never pay no heed to those  
who oppose my lifestyle  
Feel no remorse for the wrong  
that I've done  
I constantly abuse all who try  
to use me  
Like a fallen angel banished  
from the sun

Chorus

Cause I'm the Night Stalker,  
feel the cold caress of knife  
Stealthily advancing to cut out  
your life  
Yeah the Night Stalker, assassin  
at your back  
Skulking in the shadows  
poised for attack

Prowling these streets at night,  
I fight a deadly game of survival  
Stealing through the concrete  
jungle with bloodlust in my  
brain  
All here fear me I'm ruthless  
as I'm godless  
A predator of the side walk in  
his alley-way domain

(Chorus)

Society brands me a homicidal  
madman, but they cannot  
cage what they cannot see  
When I'm coming you as  
good as a dead man  
Ain't no one alive that can  
elude me

(Chorus)
