Clutch

What?

Alright

Smokestack full of black meats and step back

Got a smokestack full of black meats and step back

I got a smokestack full of black meats and step back

Smokestack full of black meats and step back

Said I got a smokestack full of black meats and step back

Smokestack

Black meats, get back

I got a smokestack full of black meats

And just a little bit of collard greens

Oh ain't that just super duper?
