

I Never Knew

Clyde McPhatter

I never knew
Love could be so cold
I never knew
How true love could grow old
Till I found out your love
I could not hold

When you said goodbye
You made me cry
When you said goodbye
You made me cry
You really broke my heart
Tore my world apart
I wonder why

Because your love is all I need
Your kiss satisfies my need
And I wonder now
Why did you break our vows

My daddy said
A man should never cry
My daddy said
A man should never cry
But when you walked away from me
I thought I'd die

Because your love is all I need
Your kiss satisfies my need
And I wonder now
Why did you break our vows

My daddy said
A man should never cry
My daddy said
A man should never cry
But when you walked away from me
I thought I'd die

I thought I'd die
I thought I'd die
