Just Give Me A Ring

Clyde McPhatter

When love has come and gone
And you feel so all alone
Don't worry 'bout a thing
Just give me a ring

If the flu ever gets you down
And you can't find a friend around
Don't worry 'bout a thing
Just give me a ring

It's just sad and lonely
Thinking love was only a dream
Well, you just got a case of a broken heart
Things are not as bad as they seem

Oh, when your world falls apart
And you're left with a broken heart
Don't worry 'bout a thing
Just give me a ring

When you're sad and lonely
Thinking love was only a dream
Well, you just got a case of a broken heart
Things are not as bad as they seem

Whoa, when your world falls apart
And you're left with a broken heart
Don't worry 'bout a thing
Just give me a ring

Don't worry 'bout a thing
Just give me a ring
Don't worry 'bout a thing...
