

# Let's Try Again

Clyde McPhatter

Let's make a goal  
Of the love we used to share  
That love will grow and grow  
If you just say you care

I know, I know the reason why  
We didn't make it then  
So come on, darling  
Let's try again

I've been so wrong  
Darling, I apologize  
It took me so long  
But I finally realized

I can't go on till I know  
Love's around the bend  
Come on, darling  
Let's try again  
(Let's try again)

I've been a fool  
To ever look at someone new  
A fool for ever hurting you

Oh, but I've gone to school  
And, honey, now I know the score  
It's you, it's you  
It's you that I adore

So take my hand  
Put your trust in me somehow  
Please understand  
I've got to have you now

I love you and I know  
That our love shouldn't end  
Come on, darling  
Let's try again  
(Let's try again)

So take my hand  
Put your trust in me somehow  
Please understand  
I've got to have you now

I love you and I know  
That our love shouldn't end  
Come on, darling  
Let's try again  
(Let's try again)

Oh, come on, baby  
Let's try again
