

Watershed

Coal Chamber

You did what you did
You're a fucked up kid
And now you sit and reflect
On all of the shit

Behind my back a leader
with no skills
Just the site of you is making me ill
And now you want to
run & run & run & run & run

Watershed
Watershed you've made your bed
Watershed
Watershed you've made your bed

The drive-thru windows
Calling you back kid
Yoy lied schemed and
that is the truth of it

And now you want to
run & run & run & run & run

Watershed
Watershed you've made your bed
Watershed
Watershed you've made your bed

You've made your bed
Now you'll lie in it

Lie in it...PULL
Lie in it...PULL

Watershed
Watershed you've made your bed
Watershed
Watershed you've made your bed
