

# Tonight

Coasts

So what will become of me?  
Now I've had this epiphany  
We'll break down the walls  
To find a place where we both can be safe

Safe from the pressures of modern life  
Where's our adventure?  
Could this be it for us again?

'Cause tonight we are together  
You bring me to life  
And my world starts to blur

Now show me how much you need to grow  
My blood isn't cold anymore  
What else will you say?

And show the palms of your hands before you pray  
Grow at the thought of  
Days and hours spent on your own

'Cause tonight we are together  
You bring me to life  
And my world starts to blur

'Cause tonight we are together  
You bring me to life  
And my world starts to blur

I know you'll be here  
I know you'll be here  
I know you'll be here  
I know you'll be here

'Cause tonight we are together  
You bring me to life  
And my world starts to blur

Tonight we are together  
You bring me to life  
And my world starts to blur

'Cause tonight  
You bring me to life  
And my world starts to blur
