

## On & On

Cobra Skulls

On and on and on  
How can we keep holding on?  
On and on and on

It's never been so close before  
Never been so close and yet so far away  
It's right there in front of me  
I know it's sitting right there in front of you  
But it's out of reach and it's always gonna be  
Some say give it up and let it go  
Is it dragging you down like your romantic soul?  
Some say give it up and let it go  
But I can't let go

So what if I don't wanna hold on any longer?  
Just cause it doesn't kill us doesn't make us stronger  
Wanna believe that you're a lover not a fighter  
Don't tell me it gets darkest before it's gotta get lighter

We gotta get communicating  
We're not meant to be so separated  
We gotta fight for what we want  
But I don't wanna have to fight to a bloody end  
So don't fight me my friend

No one said that it was gonna be easy  
No one told you it would come for free  
Only liars promise the truth  
We don't need them to be  
We believe  
Don't we believe

It doesn't make us stronger  
Tell me you're not a fighter
