

# Fool Like Me

Cobra Starship

Your daddy always said you should stay away from  
A fool like me, a fool like me  
And when your momma sees me callin' on your telephone  
The bitch hangs up on me  
Huh!?

[Verse 1:]

Remember that time I blew your mailbox up  
I was just kidding about that (kidding about that)  
I'm sorry that I hit your dog with my bike  
But he's still got three legs (he's gonna be just fine)  
And baby, baby I ain't too sure that  
I know how to change anymore  
But  
This I know for sure..  
I just got eyes for you  
Even though your friends say: Oh my God, how can she be with him?  
Oh my God leave his ass!

[Chorus]

Your daddy always said you should stay away from  
A fool like me, a fool like me  
And when your momma sees me callin' on your telephone, she hangs up on me  
That bitch hangs up on me  
Yeah I know  
That I'm a grown ass man  
Who still acts like an idiot  
But Lord he must have been in a good mood the day  
He let a girl like you  
Choose to take a fool like me

[Verse 2]

I never meant to drive your car into that tree  
I'm still real sorry about that (sorry about that)  
And I know I can't get it right  
But I would do anything, anything  
For my  
Baby, baby you ain't too sure that  
I know how to change anymore  
But  
This you know for sure...  
I just got eyes for you  
Even though your friends say: Oh my God, how can she be with him?  
Oh my God leave his ass!

[Chorus]

Your daddy always said
