

Me And My Shaman

Cock Robin

Covered in violet velvet
The ultimate gagger
Guess I fell for it
Though I got five dollars
And some change

Oh well now
Why not go bust
If you can't trust a magician
Brother who can you trust ?
One way or another
We're all deranged .

The wolf in sheep
We are a Bo Peep
And our love is overflowing

There'll be fire in the sky
When they're coming for us
We say our goodbyes
When they're coming for us
We're kneeling to your lies
When they're coming for us
Me and my shaman
Me and my shaman

Way way before Waterworld
Was heaven's gate
And diving for pearls
And many well known treasures
Of the human psyche

I've got no time
For Wacco maniacs
Just a trend on the ammo tree
And our channel back
I got no channels on Jesus Christ

We are the ones
And we feel so young
And our love is overflowing

There'll be fire in the sky
When they're coming for us
We say our goodbyes
When they're coming for us
We're kneeling to your lies
When they're coming for us
There'll be fire in the sky
When they're coming for us
We say our goodbyes
When they're coming for us
We're kneeling to your lies
When they're coming for us
There'll be fire in the sky
When they're coming for us
We say our goodbyes

When they're coming for us
Me and my shaman
Me and my shaman

Me and my shaman

Me and my shaman
Me and my shaman....
