

## Riot Squad

Cock Sparrer

When we were at school I thought he had it sussed  
Fighting the law with the rest of us  
Smoking, drinking, acting cool.  
( 'Til) they started treating him like a fool  
Then he stayed on his own for most of the time  
Dreaming dreams of a life of crime  
In and out of trouble, he cheated and lied  
But who'd have thought he'd join the other side

R:

He's in a riot squad  
The wanna fight squad  
The shoot on sight squad  
For law and right

Down to Hendon with the boys in blue  
It's amazing what a few weeks can do  
Out in the car, out on the street  
South of the river on the frontline beat

R:

Cracking heads, it was all a game  
A finger was pointed and he got the blame  
Now he's back where he started, he ain't got a pound  
Queing with the sorts he used to kick around.
