

## We're Coming Back

Cock Sparrer

We're coming back, we're coming back  
We're coming back to you  
We're never gonna go away again  
Hold on a little longer, try a little harder  
'Til we're arm in arm together to the end

R:

So remember, out there somewhere  
You've got a friend, and you'll never walk alone again

Don't get worried, don't get scared  
We're fighting to get there  
Never doubt we're gonna get through  
We're gonna run, we're gonna crawl, kick down every wall  
It won't be long we're coming back to you

R:

We're coming back, we're coming back  
We're coming back to you  
We're never gonna go away again  
Hold on a little longer, try a little harder  
'Til we're arm in arm together to the end
