

Stand Up

Coco Jones

I see you sittin'
There and all you
Do is nod yo head
Why don't you get up
On the dance floor instead?
It's about having fun,
And not about lookin' cool
So grab your crew
And let me see
What you can do
Pop, lock, drop boy
That groove is so fly
The way your body moves,
Do you know your mystefied
We know each other, truth,
Without a doubt, no lie
Everything you do is so fly
I'm justified

Nod your head
And swag with me
Let me see you get pumped
And feel the beat
Nod your head
And swag with me
C'mon you gotta stand up baby

Stand up stand up
Can you feel the beat?
Stand up stand up
Let me hear ya' scream
Stand up stand up
Throw it in the air
C'mon everybody,
Let me see you whip your hair!
Stand up stand up
Let me see you move
Stand up stand up
You know how we do...
Everybody stand up!
Lemme se ya' stand up
Stand up stand up
Stand up!

On the floor rocking like
We never had before
Get it! Drop the beat,
I wanna hear some more
Check me and my girls
We 'bout to set it off
Gonna blow it up,
Now you know
who's the boss...
Take note, Were gonna teach you
How to rock it out
Strike it slow
I got the crowd on lock

Everybody gettin' wild
You know what I mean

Throw it up
Nod ya' head
Let me hear ya' scream!

Nod your head
And swag with me
Let me see you get pumped
And feel the beat
Nod your head
And swag with me
C'mon you gotta stand up baby

Stand up stand up
Can you feel the beat?
Stand up stand up
Let me hear ya' scream
Stand up stand up
Throw it in the air
C'mon everybody,
Let me see your hair!
Stand up stand up
Lemme see you move
Stand up stand up
You know how we do
Everybody stand up!

Hey ladies! Why you sittin' in ya' chair?
Playin' with ya' hair,
Girl lookin' like a square
Acting all bored,
Like you don't even care
I swear there's a party goin' on in here!
Yo fella's, I mean for real (serious)
Actin' all cool
Permanant chill, bobbin' your head
Tappin' you feet
All you really gotta do is just react
To the beat

So stand up
Shawty! And watch what I do,
Take a look for...
Just me and my crew
Lookin' all fly with our skinny jeans on
And our sharp!
Can we get a ding dong?
As I groove to my left,
The Jerk to my right
Juke to my left
When twerf to right
Move to my left,
Then work to my right
'Till I'm coming on em' yall!
Coming-coming on em' yall!
Stand up!

Nod your head
And swag with me
Lemme see you get pumped
And feel the beat

Nod your head
And swag with me
C'mon you gotta stand up baby
Stand up stand up
Can you feel the beat?
Stand up stand up
Let me hear ya' scream
Stand up stand up
Throw it in the air
C'mon everybody,
Let me see your hair!
Stand up stand up
Let me see you move
Stand up stand up
You know how we do
Everybody stand up!
Lemme se ya' stand up
Stand up stand up
Stand up!
