

Baby Tiger

Cocoon

I saw you in my nightmare, glowing in the dark
Oh baby, baby tiger, I need you back
To hide the nights out of my sight

And when you reached the big tree, your belly reached mine
You tied me up with your feet and with your mouth
You made me come a thousand times (x 2)

And my heart might not be shaped like yours
But I swear it is big enough to be your home
I'm the milk in your cereal bowl

Oh baby, baby tiger, I tame you with my breast
I rub you in the shower, I'll do my best
And I know you're wild but we've got time
And I give you while the best I'll find

And my heart might not be shaped like yours
But I swear it is big enough to be your home
I'm the milk in your cereal bowl (x 2)
