

Hard to Find

Codeine

A good friend is hard to find
But you'll have one if you open your eyes
A good friend is hard to find
I found you
Will you be mine?
And time will show
And time will SHOW
And time will show
And time will SHOW

A good friend is hard to find
But you'll have one if you open your eyes
A good friend is hard to find
I found you
Will you be mine?
And time will show
And time will SHOW
And time will show
And time will SHOW

But not me
