

You know you get what you want  
You get what you want  
Because you look at me  
You know you get what you want  
Be we float downstream yeah  
All is clear  
Under this translucent skin  
But you won't let me in  
The shade of your eyes  
The shape of your eyes  
Change the subject while you still can  
But its not gone no its not gone  
Engage the subject while you still can  
But its not going anywhere  
All is clear  
Under this translucent skin  
But you won't me in  
The shape of your eyes  
The element of surprise  
So sit down  
Just sit down  
Lets wait here  
Cause its not over  
You know you'll get what you want
