

Carry On

Cœur de Pirate

We sat on the edge of worlds today
The light of the sun daunts on my fate
And we're tried and true, our souls we bare
You promised to love me for some time

So don't let me fall, don't let me fall
Let the night time come its way
Don't let me fall, don't let me fall your way

And carry on, just cross the waters, I'll be okay
'Cause I've been loved, I've been loved enough today
I know your fears are hidden well beneath your wind
So don't be long and leave me here, let me belong
Let me belong

In darkness we rise, at twilight we sway
Only then do we feel alive
And the verve we once had lies in the bay
I hear it yelling for our lives

So don't let me fall, don't let me fall
Let the night time come its way
Don't let me fall, don't let me fall your way

And carry on, just cross the waters, I'll be okay
'Cause I've been loved, I've been loved enough today
I know your fears are hidden well beneath your wind
So don't be long and leave me here, let me belong
Let me belong

So won't you let me fall
So won't you let me fall
Let the nighttime come its way

And carry on, just cross the waters, I'll be okay
'Cause I've been loved, I've been loved enough today
I know your fears are hidden well beneath your wind
So don't be long and leave me here, let me belong
Let me belong
