

The Way Back Home

Cœur de Pirate

All streams lie below the sea
That's what's been told, that's why we're free
And careless we are when we are young
And all we could do was live through songs
And you came running to my life
Your laugh laced with gold and still gray eyes
Your voice left echoes in my mind
Were you someday to be mine?

And I'll find my way back home
Just to read upon the light that's in your eyes
And if you ever feel alone
Just remember that I'll be coming back

And in these waters where we lay
The currents are strong, we're washed away
We're looking, we look for different hearts
Once they are found, we keep them crossed

And I'll find my way back home
Just to read upon the light that's in your eyes
And if you ever feel alone
Just remember that I'll be coming back

And I'll find my way back home
Just to read upon the light that's in your eyes
And if you ever feel alone
Just remember that I'll be coming back
