

Are You Interested

Cog

Caught In the thick of it
Eye in the pyramid
Force fed and sick of it

Yes, they're making lists of people interested in this
And they're scanning all their data bases, hunting terrorists
Yes they're making lists of people interested in this
And anyone who speaks their mind is labelled anarchist

Yes they're making lists..

Yes they're making lists of people interested in this
Yes they're making lists, read the warning signs!

Bald heads in parliament with ritual and covenant
Keep telling us we've got to read the warning signs
Barcodes and fingerprints, obedience identikit
It's time to read the warning signs

Yes they're making lists of people interested in this
And they're weeding out the baddies like the flour that we sift

Yes they're making lists...

Sun gods and obelisks in blood lines from Sirius
As doctor puts a spin on all the warning signs
Corporation counterfeit, we're strip searched and desperate
It's time to read the warning..

Yes they're making lists of people interested in this
And there's whispers in the temple of a rebel catalyst
Yes they're making lists of people interested in this
Yet the public like to laugh at fools who take it serious

Early in the morning as the garden starts to grow
Every single warning is a seed we need to sow

Yes they're making lists! Are you interested?
Yes they're making lists but maybe they're the terrorists
