

Three Evils (Embodied in Love and Shadow)

Coheed and Cambria

Across the floor in the hand of where we drove the drill
A cautious ear to the mouth of your confession
Think of all the things we put him through
In the face of his god would he tell the truth?

Still recorded were the words that dribbled out his kiss
When eyes go blind in this man of what could once become
Sever the limbs off his torso in sleep
And burn what remains so the world may now see
No longer...will we wait for your answers
Back to the hell where you've come from
Think of all the times you once had
Write them in a letter that says "goodbye"

You'll listen to reason while you're face down in the dirt
You'll stomach the hurt and break for him here just how much he's worth

Slowly discarded were the remains of his lonely youth
Among the alley where the dwellers scare to notice
Picture a young boy in pieces and streets with leveled malfunctions
No name to be called redeemer
We'll fix him restore him...with the love is no other
Think of all the things you did before
Write them in a letter that says reborn

You'll listen to reason while you're face down in the dirt
You'll stomach the hurt and break for him here just how much he's worth

Following you across the interstate walking away...I'll fire on
Following you across the interstate walking away...I'll fire on
Following you across the interstate walking away...I'll fire on

On the wrong way out
On the causeway to nowhere
On the wrong way out
On the causeway to nowhere
On the wrong way out
On the causeway to nowhere

Dear my friends in the time we've spent forever
after beyond this when will our nightmare ever end?
Dear my friends in the time we've spent forever
after beyond this when will our nightmare ever end?

Pull the trigger and the nightmare stops...
Pull the trigger and the nightmare stops...
Pull the trigger and the nightmare stops...
Forever you will, forever you will learn

Pull the trigger and the nightmare stops...
Pull the trigger and the nightmare stops...
Pull the trigger and the nightmare stops...
Forever you will, forever you will learn

Pull the trigger and the nightmare stops...
Pull the trigger and the nightmare stops...
Pull the trigger and the nightmare stops...

Forever you will, forever you will learn
