

# Break Free

Colbie Caillat

Try to keep you in my pocket  
Couldn't stop you, couldn't stop it  
You were running from the very start  
I was driving with my hair down  
With the breaks on, the lights out  
We were drifting, didn't know how far

I see the way you look at me  
It's not the same as it used to be  
You can say what you want but  
You can say what you want but you won't stay  
Say goodbye, it's so messed up, I'm torn inside  
You can say what you want but I

I just got to break free, free  
I cry black tears and scream but you never hear me, me  
I can't go on, playing along  
Let me go, let me go, let me  
Let me go, let me go  
The longer you take the harder I break  
So let me break free

I remember how it started  
Like a windstorm, couldn't fight it  
We were strangers from the very start  
Try to keep you in my pocket  
Couldn't stop you, couldn't stop it  
You were running, didn't know how far

I wish you'd just walk away  
This is all that I can take  
You can say what you want but I

I just got to break free, free  
I cry black tears and scream but you never hear me, me  
I can't go on, playing along  
Let me go, let me go, let me  
Let me go, let me go  
The longer you take the harder I break  
So let me break free

I can't go on, playing along  
Let me go, let me go, let me  
I can't go on, playing along  
Let me go, let me go, let me  
Cause I know that I can't wait for you, baby

I just got to break free, free  
I cry black tears and scream but you never hear me, me  
I can't go on, playing along  
Let me go, let me go, let me  
Let me go, let me go  
The longer you take the harder I break

I just got to break free, free  
I cry black tears and scream but you never hear me  
I can't go on, playing along

Let me go, let me go  
Let me go, let me go  
The longer you take the harder I break  
So let me break free
