

Midnight Bottle

Colbie Caillat

Midnight bottle take me calmly through my memories
And everything will come back to me
Midnight bottle make it real what feels like make believe
So I can see a little more clearly
Like every single move you make,
Kissing me so carefully,
On the corners of my dreaming eyes

I've got a midnight bottle gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight
A midnight bottle gonna ease my pain
From all these feelings driving me insane
I think of you and everything's all right
If only for tonight

Got a midnight bottle
Drifting off into the candlelight
Where I can find you any old time
Midnight bottle I forgot how good it felt to be in a dream
just like you had me
'Cause lately I've been stumbling feels like I'm recovering
But I think it's only for tonight

I've got a midnight bottle gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight
I've got a midnight bottle gonna ease my pain
From all these feelings driving me insane
I think of you and everything's all right
If only for tonight
If only for tonight,
Oh if only for tonight,
If only for tonight

I've got a midnight bottle gonna drink it down
A one way ticket takes me to the times we had before
When everything felt so right
If only for tonight,
A midnight bottle gonna ease my pain
From all these feelings driving me insane
I think of you and everything's all right
If only for tonight
Yeah
Midnight bottle,
Take the time away
From where we are
