

Saved You Money

Colby O'Donis

What's up, Akon?

Colby O

It's what you wanted to say

Konvict music

Shorty got stash, shorty got back

Don't need a man, got 2 Cadillac's

22's waxed, subs in the back

This girl ain't promiscuous, I know that for a fact

Yet she's the type to drain your wallet

All your earnings too

She'll suck up acting

Like she's gonna give it to you

She'll step up turn around and tell you why

Why she wants to take you home to make you her new guy

But that's the trick she does to every victim that is why

If you don't run she will own all your money

Take it to the floor, want to know the girl or no?

She'll be fast to hit the go, might as well just close the door

Homie, you should be thanking me

'Cause I saved you money, yeah oh

You want to experience what I've been through

Honestly I talk to you

'Cause I know exactly what she's gonna do

And she's gonna take you for a ride

'Cause she don't care what she does

To your love, your love

This is what she's gonna do

She'll step up turn around and tell you why

Why she wants to take you home to make you her new guy

But that's the trick she does to every victim that is why

If you don't run she will own all your money

Take it to the floor, want to know the girl or no?

She'll be fast to hit the go, might as well just close the door

Homie, you should be thanking me

'Cause I saved you money, yeah oh

She'll let you wack that, tap that

She ain't gonna back that

Even if you roll the 20 inches on her back then

Roll and spin, drinking juice and gin

Get you laughing, acting like you was...

You ain't getting nothing and that is a proven fact

And roll with me and soon you'll see

She'll step up turn around and tell you why

Why she wants to take you home to make you her new guy

But that's the trick she does to every victim that is why

If you don't run she will own all your money

Take it to the floor, want to know the girl or no?
She'll be fast to hit the go, might as well just close the door
Homie, you should be thanking me
'Cause I saved you money
'Cause I saved you money, man
