

State Of Mind

Colby O'Donis

If I can read the stars I could see
Us together
Can you read my mind?

It's so obvious were two birds
Of a feather
I think that's a sign

You gotta leave the past behind
It's all about your state of mind
You'll never know until you try
It's all about...
Your state of mind!

1-2-3-4

In another world we will search
For the other
The other half that takes that hope

But they may never find
What we found in each other
That's what makes us gold

You gotta leave the past behind
It's all about your state of mind
You'll never know until you try
It's all about...
Your state of mind!
