

# I Got Things to Do

Cold Chisel

I got things to do  
I don't want to  
Give me way more time to spend with you  
Honey when you're gone  
You're gone too long  
It sure gets lonely when you're gone away

If you hear me cry  
Your name in the night  
Baby I'm just tryin' to find your welcome light  
Well there's only one  
You're thinkin' of  
It sure gets lonely when you're gone away

My work is done, this is my time  
And there's someone I need to know  
Maybe one day we'll find  
We won't have no need to go

My work is done, this is my time  
And there's somewhere I need to go  
Maybe one day we'll find  
We won't have no need to go

I got things to do  
I don't want to  
Give me way more time to spend with you  
Honey when you're gone  
You're gone too long  
It sure gets lonely when you're gone away

I got things to do today
