

Somewhere In the Silence

Cold Chisel

Somewhere in the silence
There's got to be something
So much more
Somewhere in the silence
The answer is there for one and all

Together now
So in love we are one
Oh, I wanna make it
Get inside your heart

When late at night
And our thoughts start to flow
Somewhere in the silence
There's the answer I know

Chorus:
So many times
We come so close
Somewhere inside
We feel we know

Another night
With memories alone
Oh, I got so many
Of a love unsung

I see your face
Such a sight to behold
Somewhere in the silence
I will find you I know
