

# Temptation

Cold Chisel

Running so fast, trying so hard  
Losing a girl who is closing, she's chasing behind  
When I get home I lock up the door  
Close the window, I don't come out no more

Take away temptation now  
From before my eyes  
Take away temptation now  
From before my eyes

I've gotta get out, climbing the walls  
But it won't be too long till I want to be  
Locked up again  
Driving me wild, being alone  
You're outta my sight and I swear  
I'll go outta my head

Take away temptation now  
From before my eyes  
Take away temptation now  
From before my eyes

Running so fast, trying so hard  
Losing a girl who is closing, she's chasing behind  
Running away, all of the time  
Most of the day and all of the night

Take away temptation now  
From before my eyes  
Just pass me by
