

# Invincible

## Cold War Kids

Detached from the violence  
Paradise, we're chilled to the bone  
It only takes a moment of silence  
We stare in disbelief at our phones

We cried out for justice  
Now it's just a fairytale  
Box in our cars on Christmas  
Is it just a wasted prayer?

And no  
I don't feel invincible anymore

What can I get closer for?  
From my bed  
I can't feel your suffering  
I'm seeing red  
Can't get you out of my head  
Can't get you out of my head

Your beautiful body  
Watching arrows fall from above  
What if we attack like an army?  
The only weapon we use is love

And no  
I don't feel invincible anymore

What can I get closer for?  
From my bed  
I can't feel your suffering  
I'm seeing red  
Can't get you out of my head  
Can't get you out of my head

Oh  
I don't feel invincible  
Invincible  
I don't feel invincible  
Invincible  
Invincible  
I don't feel invincible  
Invincible

What are we still talking about?  
What you said  
Nothing is shocking  
Can't get you out of my head  
Invincible  
Can't get you out of my head  
Invincible  
Can't get you out of my head
