

# Louder Than Ever

Cold War Kids

All my windows were barred,  
The sun made stripes of shades  
I was sitting round like a zombie feedin my own face

I was carrying my cheek, I was digging my strange  
I was taken you for granted  
You were holding the rains

[Chorus]

But I can hear you louder than ever  
Whisper to me, help me remember  
I can't see you but we're still together  
I can hear you louder than ever

It's a slippery slope, like that mouse trap game  
Inside my television you slept on my train

[Chorus]

But I can hear you louder than ever  
Whisper to me, help me remember  
I can't see you but we're still together  
I can hear you louder than ever

I don't wanna ignore  
You were the past of my feelings  
But probably gonna get out of this just  
Hear me out anyway  
The darkness knockin' and now I'm down in on all my promises  
Don't try to pull me out of this  
Just lay down by me and wait

[Chorus]

I can hear you louder than ever  
Whisper to me, help me remember  
I can't see you but we're still together  
I can hear you louder than ever

I can hear you louder than ever  
[repeat]
