

Part of the Night

Cold War Kids

We are a part of the night
Part of the night
You see me through my darkest times
We are a part of the night
Part of the night
I feel you when I close my eyes

I hate to get all emotional
The separation leaves us vulnerable
I'm so aware of what you must think of me
I used to have so many tricks up my sleeve

I wish I could be the one who's shining, who's always honest
And I feel the daze driving to right my wrongs

We are a part of the night
Part of the night
You see me through my darkest times
We are a part of the night
Part of the night
I feel you when I close my eyes

I guess you knew what you were getting into
I'm temperamental and [?]
Will we divide and [?]
Who set out, who set out to live two separate dreams

Do your friends say I'm playing the artist card?
But they don't sympathize when it gets too hard

We are a part of the night
Part of the night
You see me through my darkest times
We are a part of the night
Part of the night
I feel you when I close my eyes

Careful not to overexpose
Do you remember what we started this for?
The damage we gave up is bigger than us
It was a vision built from the ground up
So it's ours to crush

We are a part of the night
Part of the night
You see me through my darkest times
We are a part of the night
Part of the night
You see me through my darkest times
We are a part of the night
Part of the night
I feel you when I close my eyes

We are a part of the night
Part of the night, part of the night, part of the night that I need you
Part of the night, part of the night, part of the night that I need you
We are a part of the night

Part of the night, part of the night, part of the night that I need you
Part of the night, part of the night, part of the night that I need you
