

All The Things You Said You'd Never Tell

Cold World

The gears grind one by one
They grind each of us down
But you feel it so much more
You feel stripped and abused
Yeah I know you
Now here comes the secret
All the things you said you'd never tell
Much more than regrets
Memories before your angels fell
Glass in the grass
Snakes in the race
But now you don't feel
So alone in your place
You can't overcome it
You can't outrun it
It becomes a part of you
Are we right to feel so wronged
Those things, they won't phase me
Am I the same since I'm gone
Time has changed me
