

## How Deep

Cold World

Just how deep can shit get  
I'm in above my head again  
Life put me in my place  
Now it's written all over my face  
Gotta get up, gotta get out  
I gotta change what my life is about  
Too much wasted time in my mind  
With a rage of discipline I'll get by  
Life is hard but as time goes on  
You learn from your mistakes  
So now it's up to me  
How many more I let myself make  
When you ask me will I be okay  
I don't know what to say
