

They never said.
They never said life would be easy for me.
When they left me all alone and sent me on my way.
What the fuck. I just can't come up.

In this place where everyones corrupt.
Try to work as hard as I can.
To be the better man.
But that's not part of their plan.

Never let my friends see the real me.
The one in pain, sorrow, and suffering.
And with my family, they never cared much.
They just watched while I get crushed.

They never said life would be easy for me.
When they left me all alone.
