

We Ain't The Same

Cold World

Take what you can cause they'll do the same.
We're hungry and hurt feeling pain from the game.
Life's a bitch and then you die (don't ask why)
Cause you never know when you're gonna go

We ain't the same
You don't know pain
I think of my life and all the sacrifice
We ain't the same
You don't know pain.
I taught myself wrong from right

Don't tell me to suck it up
I've heard your sob story for long enough
There's a struggle we all go through
So why should I feel pity for you
Bust it
