

Feel It in Your Heart

Cold

Cant run away from love if yo cannot feel
Everything falls apart in a tragedy
I am so far away from gone
I just wanna be here
Everyone forms apart in my symphony

R: Can you feel this in your heart
Can you take it to your soul
I don't want you to pretend
I don't wanna be alone

Feels like im torn apart
And I cannot bleed
Caught in the web you made
This just can't be real
I am so far away from gone
I just wanna be here
Everyone falls apart in this tragedy

R:

I don't wanna be alone
Everyday I'll live through this alone
Inside ive changed
Everyday I'll live through this alone
