Flight of the Superstar

Every time I see the stars shine down I think of her The life she lives today Made a deal to trade her life for fame A super star inside her when she plays

Did you see her flow Did you see a spark Did you see her go Did she break your heart

Did you see her flow Did you see a spark Did you see her go Did she break your heart

On a plane they say to take the world To heal our souls despite her own heart break Destination unknown every day

The lights on her Tonight her home's the stage

Did you see her flow Did you see a spark Did you see her go Did she break your heart

Did you see her flow Did you see a spark Did you see her go Did she break your heart

Can you see her flow Can you see a spark Did you see her go Shines like a star Like a star Shining like a star
