## Ocean

If the wind could bring the rain I would save it all for you Make an ocean to sail away And begin again

They said, I could never change That it can't belong to you Then I watched you slip away In the ocean's arms

I will never get you back It's like fallin' down a wave Fallin' down a wave

I will never get you back It's like fallin' down a wave Fallin' down a wave

If a star could light the way That could take me back to you And the rain could wash away Everything I've done

Only melody remains So I sing my song to you As I watched you slip away In the ocean's arms

I will never get you back It's like fallin' down a wave Fallin' down a wave

I will never get you back It's like fallin' down a wave Fallin' down a wave

Fallin' down a wave I will never get you back Like fallin' down a wave I will never get you back

I will never get you back It's like fallin' down a wave Fallin' down a wave

I will never get you back Like fallin' down a wave Fallin' down a

I will never get you back It's like fallin' down a wave Fallin' down a wave

I will never get you back It's like fallin' down a wave Fallin' down a wave I will never get you back I will never get you back I will never get you back I will never get you back
