

## Cover Sleeve

Coldfinger

I wonder, if I ever let you down  
Did you keep on moving  
I wonder, when I took my feet from off your ground  
Did you keep on going

If you ever need me, just remember  
All the times when we wandered free  
If you ever miss me, don't you know  
That i feel the same way

I wonder, did I ever fail you  
Did you give up dreaming  
I wonder, when I had to go  
Did you stop believing

Don't you know, every soul must grow older  
Our past belongs to you  
And it should make you stronger

If you ever need me, just remember  
All the times when we wandered free  
If you ever miss me, don't you know  
That I feel the same way

Don't stop moving, you must keep on going  
Don't you stop believing, you should go on dreaming  
Don't stop moving, you must keep on going  
Don't you stop believing,  
'Cause it's people like you make the world go...

If you ever need me, just remember  
All the times when we wandered free  
If you ever miss me, don't you know  
That I feel the same way

If you ever need me, just remember  
And I'll always be there  
If you ever miss me, don't you know  
...don't you know  
...we will meet again  
...we will meet again
