

Lucky Star

Coldfinger

I'm sittin' here lookin' at you
Waitin' at the end of your tuxedo
I'm sittin' here beside you
Under the high under the skin

I'm sittin' here lookin' at you
Waitin' at the end of your tuxedo
I'm sittin' here beside you
Under the high under the skin

Now you turn your face away
To feel the empty space
I'm still here
Starin' at you...

My lucky star, my lucky star
Be with me...

My lucky star, my lucky star
Be with me...

Now you turn your face away
To feel the empty space
I'm still here
Starin' at you...

My lucky star, my lucky star
Be with me...

My lucky star, my lucky star
Be with me...
