

Birds

Coldplay

Standing in the corner
Studying the lights
Dreaming of escape
Keep me up at night

But someone had put the flares up
Got me in the rays
So, guess I better stay
Come on and say

It's a fool's gold thunder
Just the warring rain
Don't let the fear stall your life
I want to see you again

Around here you never wanna sleep all night
Start falling in love, start the riot
Come on and rage with me
We don't need words, we'll be birds
Got to make our own key

We only got this moment, you and me
Guilty of nothing, but geography

Come on raise it
Come on and raise this noise
For a million people, who got not one voice

Come on it's not over
If you mean it, say it loud
Come on and all for love
Out from the underground away with me

We don't need words
Close your eyes and see
We'll be birds flying free
Holding on in a mystery

So we'll go, through this together
so when you fly, won't you?
Won't you take me too?
In this world so cruel
I think you're so cool
