

## One I Love

Coldplay

Could you, could you come back?  
come back together  
put yourself on the band  
and see us forever

Could you, could you come home?  
come home forever  
sure there are things in the band?  
keep us together

Cause you're the one I love  
you're the one I love  
you're the one I love  
ahhhh, ahhh

Could you, could you come home?  
could you tell me whatever?  
tie yourself to a mast?  
it's now or it's never

Could it tear us apart?  
it'll soon be forever  
it's gonna tear us apart  
keep us together

You're the one I love  
you're the one I love  
ahhh, ahhh  
you're the one I love

You're the one I love  
you're the one I love  
you're the one I love
