

# Speed Of Sound

Coldplay

1. How long before I get in  
Before it starts before I begin  
How long before you decide  
Before I know what it feels like  
Where to where do I go  
If you never try then you'll never know  
How long do I have to climb  
Up on this side of this mountain of mine
2. Look up I look up at night  
Planets are moving at the speed of light  
Come up up in the trees  
Every chance that you get is a chance you seize  
How long I don't stand  
With my head stuck under the sand  
I start before I can stop  
Before I say things that I made up

R: And all that noise all that sound  
All those places that I have found  
And birds go flying at the speed of sound  
to show you how it all began  
Birds came flying from the underground  
if you could see it then you'd understand

3. Ideas that you'll never find  
All the inventors could never design  
All the buildings that you put up  
Japan and China were all lit up  
The first sign that I couldn't read  
All the light that I couldn't see  
Some things you have to believe  
But others are puzzles puzzling me

R: And all that noise...  
Ah when you see it then you'll understand

\*: All those signs I knew what they meant  
Somethings you can't invent  
Some get made and some get sent ooh  
Ooh  
And birds go flying at the speed of sound  
To show you how it all began  
Birds came flying from the underground  
If you could see it then you'd understand  
Oh, when you see it then you'll understand
