

Aware And Awake

coldrain

I wanna live
I wanna be aware
I wanna live
I wanna be awake
Without the words you say
Stuck inside my head

I'll spell it out for you once again
This the war you will never win
You can't take me
You can't break me
You can't take me down
Hear what you want say what you will
Live in you sick sad little world
You think you know it all
You think you know me
You don't know a thing

Consumed by their lies too many time
Your eyes & ears are now useless
Don't bother speaking a word
Because I know that you'll poison the truth

I wanna live
I wanna be aware
I wanna live
I wanna be awake
Without the words you say
Stuck inside my head
What's this life without consequence
What's it worth if I can't believe
We can make it out alive
As long as we just try to survive

I used to be just like you
I used to think I knew just were I stood
But I was wrong
Yeah I was wrong
I used to be just like you
Lost inside without clue
So hear me now
This life is not a race
You'll find your own escape
We are all the same
We're all born with flaws
We live to change
We are all the same
So think before you hate

I wanna live
I wanna be awake
Without the words you say
Stuck inside my head
What's this life without consequence
What's it worth if I can't believe
We can make it out alive
As long as we just try to survive

I wanna live
I wanna be awake
Without the words you say
Stuck inside my head
What's this life without consequence
What's it worth if I can't believe
We can make it out alive
As long as we just try
As long as we just try
