

Believe

coldrain

The pressure
Is slowly eating through us one by one
The poison it has left inside us
Makes us feel so numb

All we need is to believe
Someday we will find a way
If we keep these hopes and dreams
Nothing is impossible (Nothing is impossible)

The silence
Has taken over every inch of the truth
The answers
Are still inside us waiting to be free

Go the time has come
Now for us to shine
Wake up open your eyes

All we need is to believe
Someday we will find a way
If we keep these hopes and dreams
Nothing is impossible (Nothing is impossible)
If we give it all we have
Someday we will find our way
So lets keep these Hopes and dreams
Because nothing is impossible

Don't you know...

These are some things we don't know
That are yet to be unfold
Because a story lives inside of us all

All we need is to believe
Someday we will find a way
If we keep these hopes and dreams
Nothing is impossible (Nothing is impossible)
If we give it all we have
Someday we will find our way
So lets keep these Hopes and dreams
Because nothing is impossible
