

Counterfeits & Lies

coldrain

Inside our TV screens 7 days a week
There's someone airing lies, that endlessly repeats
We've all got used to them eating at our brain
We've going hollow everyday

When this world is full of counterfeits and lies
We'll have to find a way to not go blind
Cuz this feeling deep inside
Is proof we still have time
To make it all right
When this world is full of counterfeits and lies
We'll have to find a way to stay alive
Cuz this feeling deep inside
Is proof we still have time
To make it all right

Inside our TV screens 7 days a week
They dominate the waves just to
Make us walk, talk and act like them
Their shows called "reality"
But it's more like a joke to me
Tell me where did you leave your pride
Lets take it back
To how it used to be
